THE STAR OF YOUR HOME

MASTER
LIVING TECHNOLOGY

MASTER
LIVING TECHNOLOGY

Here at Master, we take every opportunity to renew our image, above all by constantly offering a wide range of solutions.

We dedicate this to your country, to everything that unites us with this city, to everything it gives us and because it is here our heart lies.

This is why our action keeps your citizens right in the centre, people who represent values we share here at Master.

It gives us great pleasure to work with you and we strive to meet your expectations along this exciting journey during which we hope you feel you can place your trust firmly in us.

Thank you.

CREATED
DESIGNED AND
MANUFACTURED
IN ITALY
**100%
MADE
IN
ITALY**

ITALY means HISTORY

From Ancient Rome to the birth of United Europe, including Venice, Queen of the Mediterranean and Florence, Cradle of the Renaissance, for thousands of years Italy has been the beating heart of culture and world history.

ITALY means INNOVATION

From Galileo Galilei's telescope through to the inventions of Leonardo da Vinci, from Guglielmo Marconi's radio to Alessandro Volta's electric battery, Italy's great capacity to innovate continues day-in, day-out with the very best of world industry in the automobile industry, fashion, aerospace, energy and telecommunications.

ITALY means ART

The great artistic tradition of Dante Alighieri and Michelangelo, Giuseppe Verdi and Federico Fellini re-lives every day in the works of great artists, architects, musicians, chefs, directors and stylists, who spread awareness of the fascination and elegance of Italian style across the globe.

MADE IN ITALY

This is why each and every one of the little products created, designed and made in Italy contains a little slice of our history, our art and our great capacity to innovate, to offer everyone, every day, the beauty of our country.

MIXKIT

SYSTEM

Master encompasses thirty years of experience and cutting-edge technological innovation into its MIXKIT system, giving it a new look with a clear-cut, sharp design making for a unique, unmistakable style within everyone's reach.

All this is MIXKIT.

Unique design

WHITE

The purity and essential look of white make it the predefined colour of the MIXKIT system, able to take up discreet positioning in any ambience and smoothly match with any wall or décor type.

Pure elegance

IVORY

The MIXKIT system is also available in the fascinating colour ivory, designed to give a touch of warmth to everyday environments and blend perfectly with MIX wood and metallic colour cover plates.

COLOUR

MIX is the simplest solution for dressing the MIXKIT system with the realism of the wood effect, the softness of pastel hues or the elegance of metallic colours. the 13 colours of the MIX plate covers available, can be purchased separately meaning that the MIXKIT system can be adapted to suit any ambiance and décor choices, both during installation and when wishing to give your home a new look.

Passion & style

wide range

MIX cover plates are available in 13 different colours, to customise each of the MIXKIT articles purchased.

Special application can be created, maintaining the same aesthetic line by matching remote controls, sockets and accessories of the MIX modular system with other plate sizes
